

Employee.Controllers.sign  
UpStaff.SignUpStaffController.  
SignUpStaff

```
graph LR; A["Employee.Controllers.signUpStaff.SignUpStaffController.SignUpStaff"] --> B["Employee.Utls.EmailChecker.IsValidEmail"]; A --> C["Employee.Utls.PasswordChecker.IsValidPassword"];
```

The diagram illustrates a dependency or call relationship. A central box on the left, representing a controller method, has two arrows pointing to two separate utility methods on the right. The top arrow points to the 'IsValidEmail' method, and the bottom arrow points to the 'IsValidPassword' method.

Employee.Utls.EmailChecker.  
IsValidEmail
