

ControllerBase

```
classDiagram
    class ControllerBase
    class EmployeeControllersValidateUserValidateUserController["Employee.Controllers.validateUser.ValidateUserController"]
    EmployeeControllersValidateUserValidateUserController --|> ControllerBase
```

The diagram illustrates a class hierarchy. At the top is the 'ControllerBase' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with an open triangular head points from the top of the 'Employee.Controllers.validateUser.ValidateUserController' class to the bottom of the 'ControllerBase' class. The 'Employee.Controllers.validateUser.ValidateUserController' class is represented by a rectangle with three horizontal compartments. The top compartment contains the class name. The middle compartment is empty. The bottom compartment contains a public method signature: '+ CheckSessionStaff()'.

Employee.Controllers.validate
User.ValidateUserController

+ CheckSessionStaff()
