

Employee.Controllers.sign
UpStaff.SignUpStaffController.
SignUpStaff

```
graph LR; A["Employee.Controllers.signUpStaff.SignUpStaffController.SignUpStaff"] --> B["Employee.Utls.EmailChecker.IsValidEmail"]; A --> C["Employee.Utls.PasswordChecker.IsValidPassword"];
```

The diagram illustrates a dependency or call relationship. A central gray box on the left represents the `Employee.Controllers.signUpStaff.SignUpStaffController.SignUpStaff` method. Two blue arrows originate from its right side, pointing to two separate white boxes on the right. The top white box represents the `Employee.Utls.EmailChecker.IsValidEmail` method, and the bottom white box represents the `Employee.Utls.PasswordChecker.IsValidPassword` method.
